

The Friends of All Saints Pocklington

Report and Newsletter number 6 (2019)

Once more thank you for your support- we continue to be able to contribute toward keeping the building in good order and have handed over £4,000 towards heating costs since I last wrote to you. The Friends were also able to provide the seat near the Memorial Garden.

This year will see the PCC carry out major work in the Church involving painting and much needed new lighting. This will mean the Church will be closed during the summer. I will let you know when this work is finished and hope you will come and see the improvements.

I would like to thank Phil Gilbank for his article on a past Pocklington vicar which is attached. He also includes details of the talk on Thursday June 20th by Chris Bond –this will be really interesting and I hope you can come.

Many thanks for all your support

David Stanton
